TABLE OF CONTENTS

EXECUTIVE SUMMARY

Part 1 | Existing Conditions & Preliminary Station Siting

Introduction	1 - 1
Background	1 - 2
Relevant Plans and Studies	1 - 3
Study Area	1 - 6
Evaluation of Potential Station Sites	1 - 6
Preferred Station Sites	1 - 16

Part 2 | Findings and Recommendations

Introduction	2 - 1
Stakeholder and Public Input	2 - 2
Multimodal Access and Circulation Evaluation	2 - 3
Track and Platform Configuration	2 - 18
Station Concept Plans	2 - 21
Conceptual Service Plan	2 - 27
Capital Cost Estimates	2 - 29
Population and Employment Forecasts	2 - 33

Part 3 | Ridership Forecasts

Introduction	3 - 1
Future Year Alternatives	3 - 1
Key Model Inputs and Assumptions	3 - 2
Ridership Forecasting Results	3 - 5
Potential Changes to Inputs & Results	3 - 6

Part 4 | Conclusions

Overall Station Site Evaluation	4 - 1
Stakeholder and Public Input	4 - 1
Factors for Success—Preferred Station Site	4 - 3
Next Steps	4 - 5
