Harrisburg, PA 17120-0225

Re: Redevelopment of the Former Bishop Tube Site, East Whiteland Township, Chester County, PA- Industrial Sites Reuse Program (ISRP) funding

Dear Secretary Davin,

On June 21, 2016, I sent your office a letter indicating that the Township supported the funding request of the Chester County Economic Development Council (CCEDC) and Constitution Drive Partners L.P. (CDP) for \$1,000,000 in Industrial Sites Reuse Program (ISRP) funds for environmental remediation activities at the former Bishop Tube site in East Whiteland Township. However, since the date of that letter, additional and important information has been provided to the Township that was unknown to the Township at the time of my previous letter. This additional information must be considered, and the questions that the information raises must be answered, before the Township is able to continue in providing support for this application for ISRP funds.

As such, East Whiteland Township is presently suspending its support for ISRP funds for this project. Please understand that the Township is not opposing the request for funding, instead we are presently taking no stance towards the application.

If you have questions, please feel free to contact me.

Sincerely,

John Nagel
Township Manager
