REIMBURSEMENT AGREEMENT

Notice to all Applicants & Developers: The Township's Consulting Engineer is required to review all Plans and Applications for Erosion & Sedimentation Control, Stormwater Management, Site Grading, and/or Subdivision & Land Development (as well as other Applications which may necessitate technical review) prior to approval by the Township. Such applications may also necessitate technical review or drafting of legal documents by the Township Solicitor. The fees for these services are charged to the Township and are paid as they are incurred.

The Township must be reimbursed by the Applicant/Developer for any costs incurred for reviews made by the Consulting Engineer and for subsequent inspections of site improvements. Furthermore, the costs associated with any meeting held with the Township's Consulting Engineer(s) or Township Solicitor at the request of an Applicant/Developer (and/or his architect, engineer, or other agent) must also be borne by Applicant/Developer. Invoices will be mailed for all reimbursable fees at the prevailing rate and must be paid in a timely manner. In the alternative, the costs may be charged against a deposit or review fee escrow that may be provided to, and held by, the Township.

Before making the first contact with Township's Consulting Engineer(s) and/or Township Solicitor, the Applicant/Developer must sign this notice acknowledging that he/she is aware of the requirement to reimburse all costs incurred.

I have read this notice and agree to comply with the terms outlined above:
